about me

flexible, visionary, interdisciplinary,
works well in a team, thrives under pressure,
quick at grasping complex procedures,
direct and forthright communicator.

education

2000 - 2001 Multimedia Producer, SAE, Vienna
1993 - 1994 C++ programmer, Wifi, Innsbruck, Tyrol
1986 - 1990 Telecommunication Engineering, HTL, Innsbruck, Tyrol

skills

language

fluent in English and German, written and spoken

motion & sound design

I have produced a wide selection of image clips, loops and educational videos. My areas of expertise are developing motion designs and audio from scratch as well as from agencies briefs. I possess an in-depth knowledge of AV-technologies especially capturing, compressing and distributing video through dvd, web, terminals and other channels.

Main Tools used are Photoshop, After Effects, Apple Soundtrack, DVD Studio Pro plus a bunch of little helpers for designing, compositing, soundtracking and authoring. PC or Mac environment.

concepts & presentation

Developed and implemented creative & technical concepts for theme parks, stage shows and business events.

Working with mindmaps, spreadsheets and Apples Keynote.

programming & web

interactive gadgets, internet & intranet sites

Languages used are php, mysql, javascript, actionscript, lingo and any tool that is useful.
